ArchForKids
architecture for children

Ice Palaces & Winter Castles

Create an enchanting winter structure suitable for royalty! Learn all about the history of castle architecture and then design and build your own model inspired by the incredible structures found at the Harbin Ice Festival!

Sami Huts & Reindeer Habitats in Lapland

Explore the wintry lands of Lapland in the northern part of Finland and home to reindeer! Learn about the traditional architecture of the Sami people and build your own Sami style hut.

Arctic Abodes

Learn all about the cold, snowy arctic tundra and the animals that live there! From arctic foxes to puffins and even polar bears! Create a habitat suitable for your favorite arctic animal or a structure for humans to spend the winter.

Winter Wonderland Village

Create your own wintery village inspired by the German Christmas markets full of exciting shops, cozy apple cider stands and decorated with twinkling lights and complete with wintery rides and carousels!

Cozy Winter Cottages

Design a cozy cottage to help weather the cold winter weather!

Elf Cabins

Design and create a log cabin suitable for Santa's elf employees to spend their time off when they are done making toys!
